Monticello Woods Homeowners’ Association – Preferred provider for JCC Sprinkler System Backflow Preventer Testing

Neighbors,

The County requires testing every year of backflow valves associated with lawn irrigation systems. The HOA has recently completed a preferred provider agreement with The Backflow Company for backflow valve testing.

The agreement with the HOA is for two years at a price of \$20 per annual test. The contractor will visit your residence, test the valve, provide you and the County with the proper documentation, and bill you after the test. You are not required to attend the testing.

In order to receive the discounted price, the agreement requires that all testing be completed in the first week of August (2 through 6). This allows the contractor to concentrate his testing that week and achieve some economies of scale.

There are some homeowners whose County required testing date falls before the first week of August. Both the contractor and Gary Garrett have been in contact with County personnel and the County is willing to move the due date if you choose to use our preferred provider.

If you are interested in testing this summer, call The Backflow Company at 220-8855 and ask that you be put on the Monticello Woods preferred provider list. If required, the contractor in turn will arrange with the County to change your testing due date so that it is consistent with the August testing period.
